

could be seen hurrying up and down the deck looking in the direction of the Staten Island shore and occasionally waving hats and handkerchiefs.

Within five minutes after the Moravia was boarded for the second time she hoisted anchor, got up steam and turned her bow in the direction of the ocean. She made a long detour around the fleet, hugging the Long Island shore, and passing one of the Narrows for the lower bay shortly before noon.

#### THE MORAVIA'S CAPTAIN BLAMED.

A phase of the case of the Moravia which deserves investigation, and which should be looked into with thoroughness, is the action of the captain of the Moravia in continuing the voyage of this country under conditions which did not exist when the disease broke out on the day following his departure from Hamburg, why did he not notify those connected with the quarantine department and turn back home instead of bringing the disease to a new country?

Representatives of the Associated Press received a message from New York at quarantine stating that if reported Dr. Jenkins pronounced the cases aboard the Moravia Asiatic cholera.

Dr. Jenkins was interviewed and declared he was not prepared at present to pronounce an opinion. The Moravia is now anchored in Gravesend Bay, between Fort Hamilton and Norton's Point, having been out of the main channel.

She is out of the way of passing vessels. She will be indefinitely detained. The passengers and crew, even to the cabin boy, will be landed on Hoffman Island. Every rag of clothing will be disinfected and every person bathed. When the ship is cleansed she will be disinfected and the passengers will then be put aboard and detained there for an indefinite time, being obliged to land on the island daily for inspection and baths.

Before starting down the bay Health Officer Jenkins telegraphed Secretary of State Foster, notifying him of twenty-two deaths from so-called cholera on board the Moravia during the last ten days. This is some apprehension that the fact of cholera being aboard will have a harmful effect upon the prospects of the World's Fair, so far as foreign exhibits are concerned. Many are to come from the districts infected with the scourge, and it might be dangerous to accept goods sent here under such circumstances. It is suggested that it might be well to postpone the exposition for another year.

#### A NEW SOURCE OF DANGER.

From cholera lies in the fact that passengers of steamers arriving here eat food and drink water taken aboard at foreign ports, both of which are likely to be infected with the germs of disease.

Under such circumstances a quarantine here of two or three days would not be sufficient safeguard against cholera.

The matter is now being discussed by the Board of Health, and some action will probably be determined upon.

Cholera is thus described: There are several premonitory symptoms.

These are a general feeling of unrest, weakness, nausea and diarrhea and sometimes vomiting, the ejections at first, though frequent, being natural. Cholera is usually caused of eating overripe fruit, and while it may develop into Asiatic cholera, it is not always a necessary precursor of that dread disease. The quantity of unsound food or rotten cheese which must be taken into the system to produce cholera must be large. It differs from cholera proper in that a single germ of the Asiatic plague introduced into the intestines takes a rapid course, and the whole mucous membrane in the course of a couple of days is eaten away.

#### HEALTH OFFICERS NOT SURPRISED.

President Wilson, of the Health Board, remarked today that he was not surprised that cholera had arrived and the city officials were prepared to fight it. The board today issued a circular to all steamship steers, agents, brokers, factors, etc., etc., where a large number of people are likely to meet ordering that the waiting-rooms, or in factories certain other rooms should be set aside and made air-tight. These rooms will be temporarily places of isolation, should cases of cholera suddenly develop. Closets, etc., are to be inspected daily. The board has also fitted up a "dust-proof" room, where bacteriological examinations will be made.

Supposed cholera discharges will be cultivated until the presence or absence of the germ is made positive. All discharges sent by inspectors to the board will be examined in this room.

Should Suezburners be required, the number of cholera patients the hospital will be increased and care will be dispensed with and wire mattresses substituted. The quarantine commissioners yesterday filed an order for a number of soft wire pillows. These are more easily cleaned and are less liable to retain the germs of disease, should they be used with contagious patients, than other kinds.

#### ENTERPRISING REPORTERS ARRESTED.

The city editor of the New York World and four of his staff reporters on the towboat J. W. Husted, attempted to visit the steamer Moravia in the lower bay. They were placed under arrest by Dr. Tallmadge and brought before Health Officer Jenkins. As they did not succeed in boarding the steamer the Health Officer discharged them. The Health Officer will in the future arrest and punish any unauthorized persons found going alongside vessels in quarantine.

Dr. Jenkins will make a thorough investigation of the cause of the deaths on board the Moravia. Dr. Jenkins denies emphatically the report that he pronounced the sickness on board the Moravia as being Asiatic cholera. A full report will be given out tomorrow afternoon.

The steamship Friesland, Circassia and Vendam were still detained at quarantine this morning. The Anchor liner Italia, with 287 steerage passengers, all well, Dr. Sidney Haskell, the quarantine officer, said: "I am not afraid that cholera will be brought into this country through the persons of immigrants this summer." What fear most is that the germs will be brought over here in the clothing and baggage of immigrants, lie dormant all winter and then become active next summer and cause disease."

**QUEBEC.** Aug. 31.—The steamer Cremona from Hamburg arrived today at Cross Island, and was at once placed in quarantine. The Cremona left Hamburg the day after the breaking out of cholera at that place. There was no sickness on the vessel, but the passengers will be given a bath and their effects and bags disinfected. Five hundred and thirty-eight bales of rags from Hamburg on board will be landed and detained in the lower bay for several days.

Dr. Jenkins informed the people of the Red Star line last night that cabin passengers could be taking off the Friesland. When a steamboat went down to take them off the custom-house inspector refused to let any of the passengers take away their handbags and only seventy-five of the passengers would leave without them. The Friesland was released from quarantine later in the morning and came up to her dock at Hoboken, where all her passengers were landed. The Italia was also released after inspection, her passengers did not come from a cholera-infested port. The White Star steamer Teutonic got into quarantine at 11 o'clock today and was given a close inspection.

At the office of the Cunard line cable dispatches were received this morning, stating that all communication with Hamburg had been stopped by the Liverpool authorities.

#### THE DISEASE IN EUROPE.

**APPALING MORTALITY IN HAMBURG—THE OUTLOOK GLOOMY IN ENGLAND.** HAMBURG, Aug. 31.—[By Cable and Associated Press.] There is no questioning the fact that the present cholera epidemic is the worst that has ever visited the city and every hour the situation becomes worse. The people are dying like sheep. The report of yesterday that the epidemic was abating in violence is contradicted by today's report which shows a far greater death rate than on Monday. The falling off

in the death rate Monday was but a half in the forward march of the plague, which is now moving down its victims by the score.

A fearful feeling of apprehension hangs over the whole city. The belief that the doctors are helpless to fight the scourge grows in strength. People feel that they are helpless in the face of the fearful visitation that has come upon them, and many of them have given up hope of escaping the dread disease. This in itself is a great calamity, for courage is one of the essential factors in fighting the dread disease. Owing to red tape it is impossible to bury all the dead under the usual regulations, for the law requires the production of papers of identification before bodies are consigned to the grave. Under ordinary circumstances these papers are easily procurable, but now when whole families have been carried off by the scourge the greatest difficulty experienced in getting the papers for burials is the lack of the dead.

The Scourge at Tehran. TEHRAN (Persia) Aug. 31.—Cholera in this city has apparently run its course and is visibly decreasing. The number of deaths yesterday amounted to 2000, a decrease of 600 compared with ten days ago.

**LAST Shot at the Tin-plate Liar.**

The tin-plate liar has been driven into his hole so completely that we hardly ever hear of it nowadays. The last declaration he was heard to make before retiring was that the tin-plate industry may be growing up in this country, but we are paying a dreadful price for it—\$20,000,000 or \$50,000,000 a year—whatever they figure that the amount of the tariff would be on all the consumed in this country. As he was sliding away into obscurity, the tin-plate liar did not have time to note the fact that when America commenced to make the plate prices in Great Britain dropped to a point never reached before; that whether the American consumer buys at home or abroad, he gets his tin at a much less price than formerly. If this can be construed into helping the tin-plate industry at too dear a price, the consumer would probably be willing to stand some more of it.

The house of N. & G. Taylor Company, of Philadelphia, recently published statistics which prove that the average value of tin plate at the highest point reached each year for twenty-nine years compared with the present price was 100 per cent higher than today. For the same period the average of lowest values reached was 63 per cent, higher than today. The statistics upon which these calculations are based are as follows:

Year	At high price	At lowest price
1863	\$54.34	\$70.56
1864	63.17	73.25
1865	53.08	70.56
1866	65.74	75.89
1867	50.60	65.74
1868	50.60	63.17
1869	60.18	63.17
1870	58.24	65.74
1871	65.74	85.79
1872	85.79	15.11
1873	58.54	128.80
1874	84.48	103.94
1875	18.92	56.56
1876	10.48	48.25
1877	32.77	30.74
1878	7.07	26.51
1879	15.34	58.21
1880	15.34	93.54
1881	15.34	68.99
1882	17.83	92.93
1883	20.32	23.86
1884	12.86	20.32
1885	5.18	17.83
1886	3.95	12.86
1887	6.43	17.83
1888	8.92	20.32
1889	6.43	21.57
1890	10.15	32.97
1891	5.18	30.46

It is shown that, up to the time America began to manufacture tin plate, 97 makers within a small area of Great Britain controlled 60,000,000 consumers in the United States, who were compelled to pay whatever said 97 makers were pleased to demand, tolerate the vexatious delays in obtaining supplies.

Great Britain has been making tin plate since 1750, one hundred and seventy-two years, and there are now 97 makers.

The United States has been making tin plate for one year, and there are now 26 makers.

A comparison of the above values with the prices ruling in America during these years shows that America has paid into the pockets of the British manufacturers premiums over the intrinsic value of the goods to an amount that throws into the shade the tariff upon the article, yet this state of affairs has been going on for years, and the Democrats have not complained of it. It was under the old régime that we were paying too much of our tin whistle, not under the McKinley tariff.

Some time ago the San Francisco Examiner, in commenting upon these figures of the Taylor Company, attempted to combat them by attacking the integrity of the firm. A gentleman of Boston, prominently identified with the iron and tin trade, to whom a copy of the Examiner containing this attack was sent, responds as follows:

The Examiner is wrong. N. G. Taylor & Co. is one of the most business-like, reliable and progressive firms in America. It seems to be the fashion of the Democrats to cry out, "You're a liar," when the progressive truth comes up before them. "Whom the gods would destroy, they first mad." The Democratic platform is, with some good points, inferior on the tariff, and America will progress in spite of their mistakes.

THE SAN FRANCISCO DEPOT ACT.

A subscriber wants to know the meaning of the San Francisco Depot Act which the people of the State are called upon to vote for or against at the next election.

He will look in THE TIMES of last Monday, will find the act published in full as an advertisement. Its title very nearly explains it.

An act to provide for the issuance and sale of State bonds to create a fund for the construction and furnishing by the Board of State Harbor Commis-

sioners of a general ferry and passenger depot in the city and county of San Francisco; to create a sinking fund for the payment of said bonds, and providing for the submission of this act to a vote of the people."

The act provides for the issuance of \$600,000 in State bonds bearing 4 per cent interest. The real object of the movement, we suppose, is to emancipate San Francisco from the thrall of the Southern Pacific monopoly which now holds all of the ferry and depot accommodations of that city. Why San Francisco asks the State to bear the expense instead of putting her hand into her capacious pocket and paying it herself, we do not know. But San Francisco is groaning under the excitations of the monopoly just now, and wants everybody to rush in to the rescue. In former years it was different. San Francisco then stood in the monoply against the rest of the State. It was all grit that came to her mill, and she did not care who brought it or whence it came. Still, we think it would be a neighborly act, and possibly a Christian act, for the State to hale coals on the head of the monopoly and help her out of her difficulty.

**With Blood in Their Eyes.**

The Second Ward Republican Protective League held another session last evening, one hundred and fifty strong, and cleared the decks for action at Friday's primary. The sentiment against the contemptible methods of the ward bosses was very strong, and the members of the League manifested their sincerity by pledging all the funds necessary to prevent fraud, and agreeing to march to the polls in a body and stay there all day and all night, if necessary, to secure fair play. This is strictly business. The Second Warders are in dead earnest, and by the time they have flushed there will be one ward boss less in town and possibly several politicians will be hurt.

A ticket of delegates proposed for the County Convention is published in the proceedings of the meeting. This is a verified list, and several ward sympathizers with the reform movement would do well to cut it out and compare their ticket with it to guard against fraud.

One of the developments which the reformers promise is that the name of every Democrat who attempts to vote at the primary will be taken down and published.

The reason Mr. Cleveland is such an expert fisherman is because he is so fond of dropping a line.

**SIXTEEN TO ONE.**

The outfall sewer bonds carried by a practically unanimous vote.

**No Opposition, and in Consequence, but Little Interest Was Manifested—A Very Light Vote Polled—Official Returns.**

The outfall sewer bonds carried by a practically unanimous vote.

**Opposition, and in Consequence, but Little Interest Was Manifested—A Very Light Vote Polled—Official Returns.**

The outfall sewer bond election yesterday passed off very quietly. It was generally conceded that the bonds would carry, and as there was no opposition but little interest was manifested. As a result a very light vote was polled, only about 2000 in the entire city, of which less than 200 were against the bonds.

The election was held under the Australian ballot system, and afforded the first practical illustration of the new law. Although there were but two lines on the ticket, and consequently but two chances to make errors, the percentage of mistakes was very large. In a number of cases the wrong end of the rubber stamp was used to mark the ballot, while in others the cross was put in the wrong place, and if the same carelessness is shown in the general election in marking the tickets, at least a third of the ballots will be thrown out. In the case of the stamp, it is probable that "double-enders" will hereafter be used, and this will do away with one chance for making errors. In other instances, however, it will be necessary for the voters to read up on the law and thoroughly understand it if they wish to have their ballots counted.

All of the returns were filed with the City Clerk last evening, except those from the Seventh Ward, Deputy Luckenbach remaining in the office until 9 o'clock to receive them. In the Seventh Ward the officers of election evidently thought that any time would do to file the returns, for they went to their homes when their labors were concluded, and could not afterward be found. Following are the official returns as filed with the clerk.

# SOUTHERN CALIFORNIA.

## PASADENA.

**Tomorrow's Primaries—To Caucus or Not to Caucus.**

**Mr. Brown Advises the Reporter to Take a Pill.**

**Mr. Arthur's Friends Hold a Caucus Meeting.**

**Some Day Mr. Blaine May Live in Pasadena—Pilgrims Returning from the Beaches—Personals and Brevities.**

A caucus meeting of Republicans was held yesterday evening at the old Masonic Hall to place in nomination twenty-one delegates for the county convention, to be voted for at tomorrow's primaries.

As Capt. Simpson's friends have openly opposed the selection of delegates by a public caucus, the meeting was made up almost entirely of friends of Mr. Arthur, although a few workers on the other side drifted in to see what was going on. The hall was almost entirely filled when Judge H. R. Rose called the assembly to order. Mr. Rose read the object of the meeting to the selectees of delegates in a manner open and above board, so that every friend of Mr. Arthur might take it for granted that his support would naturally be pledged to Mr. Arthur's support.

The motion of C. C. Brown, H. J. Vail was chosen chairman of the meeting, and C. W. Bell was made secretary. Mr. Vail briefly reviewed the situation and stated that, as Capt. Simpson's forces had chosen not to join in the meeting, the entire club would naturally be pledged to Mr. Arthur's support. Mr. Vail stoutly resisted the insinuation thrown up by Capt. Simpson's friends about machine politics, and causes being controlled by a handful of men. He stated that he had no objection to Mr. Arthur's desire that his friends choose their own representatives. Mr. Vail's remarks elicited frequent applause.

It was then voted to proceed with the selection of delegates. Dr. G. Bosco Thomas suggested that each ward be permitted to select its own delegates. This plan was unanimously adopted, and those present grouped themselves according to their respective wards. The following delegates were selected:

First Ward—C. C. Brown, G. N. Chase, T. D. Allen, Henry Newby, W. S. Lacy.

Second Ward—W. B. Mosher, J. S. Cox, W. E. Cooley, G. J. Rosister, J. T. Buchanan.

Third Ward—H. C. Hotaling, J. S. Mills, W. H. Wiley, A. H. Conger, C. W. Bell.

Fourth Ward—J. W. Wood, Dr. W. B. Rowland, W. S. Gilmore, C. W. Swan, C. H. Rhodes and W. Banbury.

The secretary read the list as above, which met with the unanimous approval of all present. Just prior to adjournment, three roasting cheaters were given for Mr. Arthur.

A WORD FROM MR. BROWN.

The following lines are from the pen of C. C. Brown:

Some one, I don't know who, but certainly he is no friend to the interests of Pasadena, has been croaking for some time through the Pasadena column of THE TIMES (all too valuable for such stuff) of the dilatoriness of the water companies, and others in the matter of water supply from Pasadena. If he has any right to do so, he is a scoundrel.

First Ward—C. C. Brown, G. N. Chase, T. D. Allen, Henry Newby, W. S. Lacy.

Second Ward—W. B. Mosher, J. S. Cox, W. E. Cooley, G. J. Rosister, J. T. Buchanan.

Third Ward—H. C. Hotaling, J. S. Mills, W. H. Wiley, A. H. Conger, C. W. Bell.

Fourth Ward—J. W. Wood, Dr. W. B. Rowland, W. S. Gilmore, C. W. Swan, C. H. Rhodes and W. Banbury.

The secretary read the list as above, which met with the unanimous approval of all present. Just prior to adjournment, three roasting cheaters were given for Mr. Arthur.

Second Ward—W. B. Mosher, J. S. Cox, W. E. Cooley, G. J. Rosister, J. T. Buchanan.

Third Ward—H. C. Hotaling, J. S. Mills, W. H. Wiley, A. H. Conger, C. W. Bell.

Fourth Ward—J. W. Wood, Dr. W. B. Rowland, W. S. Gilmore, C. W. Swan, C. H. Rhodes and W. Banbury.

The secretary read the list as above, which met with the unanimous approval of all present. Just prior to adjournment, three roasting cheaters were given for Mr. Arthur.

A WORD FROM MR. BROWN.

The following lines are from the pen of C. C. Brown:

Some one, I don't know who, but certainly he is no friend to the interests of Pasadena, has been croaking for some time through the Pasadena column of THE TIMES (all too valuable for such stuff) of the dilatoriness of the water companies, and others in the matter of water supply from Pasadena. If he has any right to do so, he is a scoundrel.

First Ward—C. C. Brown, G. N. Chase, T. D. Allen, Henry Newby, W. S. Lacy.

Second Ward—W. B. Mosher, J. S. Cox, W. E. Cooley, G. J. Rosister, J. T. Buchanan.

Third Ward—H. C. Hotaling, J. S. Mills, W. H. Wiley, A. H. Conger, C. W. Bell.

NEWS AND BUSINESS

## The Weather.

U. S. WEATHER OFFICE, LOS ANGELES, Aug. 31, 1892.—At 5 a.m. the barometer registered 30.02; at 5 p.m. 29.07. Thermometer for corresponding hours showed 62° and 67°. Maximum temperature, 81°; minimum temperature, 60°. Character of weather, partly cloudy.

It has come to my notice that a report is in circulation that I have withdrawn as a candidate for Supervisor of the Fourth Supervisorial District. It is wholly without foundation: I am still in the race. The report has been started by designing parties to draw from my support. John A. Pirtle, Vernon.

Strain's Camp, Wilson's Peak. Accommodations first-class. Take Santa Fe train to Santa Anita (Sierra Madre). Bus meets all trains for foot of trail, where burros and mules can be had. A. G. Strain, proprietor. Steel bridge across stream.

Remember September is the month for fishing at Catalina, and the Grand View Hotel will give special rates for September. Now we have a fine cook and with the increase in the water supply can give you the best month of the season.

Remember that John H. Neigen, late master of the school, will open his merchant tailoring store, No. 118 North Spring street, next Saturday, September 3, with the nicest line of goods ever brought to the city.

Los Angeles to Long Beach and return 50 cents, and San Pedro and return 50 cents, on the Southern Pacific Railroad, good going Saturday or Sunday, and returning Saturday Sunday and Monday.

Do you want to get a bicycle for \$5 a month? If so, join the Riverside Cooperative Bicycle Club, represented by Anderson & Statham, No. 213 West First street, Los Angeles.

Mrs. F. E. Phillips has removed her hairdressing and manufacturing parlor, No. 553 South Spring street to rooms 31 and 32, Wilson block, corner Spring and First streets.

Gas stoves with atmospheric burners. Seventy-five per cent. of air is used. A three-burner is only \$7. An exhibition at E. E. Brown's, No. 314 South Spring.

The best and cheapest place to get a practical business education is at the Woodbury Business College, No. 245 South Spring street.

Mme. C. A. Dodd, modiste for the Persian Cloak and Suit Company, has returned from her trip and is now ready to receive her patrons.

Go to Arroyo Hot Springs, famous mountain resort of Southern California, where "trials of all kinds are great abundance."

Mrs. H. L. Thomas, room 45, Phillips Block.

Use evaporated cream and get fat. Depot No. 136 West Fourth street.

Beware of imitations when you buy Steedman's Soothing Powders!

Ladies, note Mrs. H. L. Thomas' new department.

For Hot Air Furnaces go to F. E. Brown, Dewey's Photo, the finest.

Room 45 Phillips Block.

Among the patents issued to residents of California for the week ending August 23 was one for a nutlock to A. Warenksjöld of San Diego.

Repairs were yesterday commenced on the Arroyo de los Posas sewer, which collapsed last day, says at the intersection of First street.

The regular weekly Santa Fe route express arrived from the East yesterday with thirty-seven people, in charge of W. R. Kyle, excursion agent.

A fine residence is being built by C. C. Clegg on Twenty-second street, Orchard Park, a large tract just outside the city limits. It will cost about \$10,000.

The usual holiday services will be held by the Montehermoso Hebrew Orthodox congregation at Masonic Hall; Rev. A. W. Edelman officiating. Seats can be secured at H. Kline's, on North Main street.

The outfall sewer break election passed off very quiet yesterday. There was no opposition to the bonds, the necessity for the sewer being apparent, and no argument could be made against them.

The Ladies' Auxiliary of the V.M.C.A. will meet this Thursday afternoon at 2:30 o'clock. All members are requested to be present without fail, as sometimes of importance.

The entertainment of the American Mechanics at McDonald Hall Tuesday evening was largely attended. In addition to the usual musical and literary programme addresses were delivered by several of the members.

Rev. B. Carlisle, pastor of the Congregational Church at Tucson, Ariz., in the city. Mr. Carlisle has traveled his 500 miles to attend and officiate at a friend's wedding, which takes place this evening at 7 o'clock.

Citioner Weldon held an inquest yesterday morning on the remains of John McNeely, 30, of the F. E. outfit, who ran over and killed at the First street yards day before yesterday. The jury found that his death was the result of an accident.

Mrs. L. F. Morrison, the reader, assisted by C. H. Westcott, the whistler, and other artists gave a very pleasant entertainment at the home of Mr. and Mrs. Martin McNeely, 30, on Main street last evening before a fair audience. The programme consisted of musical selections, readings, etc., and will probably be repeated in the near future.

P. W. Parker of Eagle Rock Valley has sold ten and three-quarter tons of early "traveling peaches" from his orchard, which he has planted himself. He received for this fruit \$2.25 per ton, or a total of \$26.75. Mr. White, of the same place, says he has sold \$550 worth of apricots from 223 trees, eight years old. This is the second year he has sold 33 cents per tree, while, if planted, twenty feet apart each way, amounts to \$360 per acre.

The funeral of Charles H. Wetzel, the boy who was accidentally shot and killed on Sunday last, took place from the residence of his parents, Mr. and Mrs. Martin Wetzel, on Pasadena avenue, East Los Angeles. Mr. and Mrs. Wetzel desire to extend their sincere and heartfelt thanks to the kind friends and neighbors who were so generous in acts and tokens of kindness and sympathy during the recent sad bereavement.

Much interest is manifested in this city in the comingistic carnival at New Orleans, and every one is talking about the probable chances of Sullivan and Corbett. Most people fancy the Boston champion, although Corbett has many friends in this city who think he will win. Those who are backing their judgment with their money at the prevailing odds, \$80 to \$100, with the California boy at the short end. Considerable money will change hands in this city on the big night, as well as on the minor events.

Fruit Jars and Jelly Glasses. The Mason and Lightning seal-sealers, also refrigerators, filters, gas fixtures, silver plated ware, baskets, etc., at Z. L. Farrelles, 222 and 224 South Spring street.

DRINK John Wieland or Fredericksburg Lager Beer, on tap at all first-class places.

LUSK CAB CO., Tel. 230, coupes, carriages,

Cake fresh baked  
is delicious. Use

**Cleveland's**  
Baking Powder and  
cake keeps fresh.

## Office of Chemist

## Iowa State Board of Health.

DRAKE UNIVERSITY,  
Des Moines, Iowa, March 4, 1892.

I have analyzed all the principal brands of baking powders sold in this State. The results show that the Royal has the highest leavening power of any powder examined, and is composed of pure and wholesome ingredients, of a character perfectly proper for use. Baking tests with it gave biscuit very light, white, sweet and wholesome. No other powder gave results so satisfactory.

FLOYD DAVIS, E. M., M.Sc., Ph.D.

Prof. of Chemistry Drake University, Iowa College of Physicians and Surgeons, Dean of Iowa College of Pharmacy, Chemist of Iowa State Board of Health, etc., etc.

## FOR THE U. S. SENATE.

Judge R. M. Widney Asked to Enter the Race.

A Numerously-signed Request—The Interest of Southern California Considered—Judge Widney's Response to the Request.

The following correspondence is made public:

LOS ANGELES, Aug. 26, 1892.

To Hon. R. M. WIDNEY: Whereas there is to be elected a United States Senator by the Legislature of California, and heretofore the Senators elected have uniformly been residents of the Northern portion of the State, and

WHEREAS, the Southern section of the State, in the past ten years more than half pace with the Northern in wealth population and development, and there is no reason to suppose that her future progress will be less rapid; it is a well-known fact that the Government appropriations for harbors and national buildings have in no measure been adequate to our requirements.

Therefore justice would seem to demand that the rights of the people of this section be recognized by the selection of a Senator residing in Southern California, who will see all the qualifications necessary for this high position, having been for more than a quarter of a century a resident of California, and identified with and instrumental in carrying out all measures for the welfare of the State, and who is possessed of unspotted integrity and great legal and financial ability, do hereby request that he allow his name to be presented as a candidate for United States Senator.
